## PARLIAMENT.

Compromise in Prospect.

House proceedings are still slow, awaiting the announcement that must be made when the North West Autonomy bill is presented for second reading. There is a great deal of heart-searching going on amongst members of the Government, and supporters of both parties in the House. The papers indicate considerable amendments to the educational sections of the bill, reducing the effect to the intent expressed in the Premier's speech, that is, a continuation of existing conditions. Of the Government's proposals as presented to the House, it is asserted, that this is all they contain. That subsection 3, providing for an equal distribution of the public and school land moneys is merely setting forth in definite form what is now the actual fact. On the other hand, it is asserted that the effect of this clause is to deprive the legislature of effective control of denominational schools. There does not seem to be any doubt that if all parties could agree as to a form of words which would simply carry forward the present educational conditions in the Territories, there would be little or no division in the House. From the expression of the leader of the Opposition when the bill was introduced, and from a large part of his following since, it would seem probable that they would support a measure in that form. On the other hand, with the interpretation which has been placed upon the clause, ground is given for the most extreme attacks upon the Government's position, not only by the solid Opposition, but by a very large proportion of its supporters. Under the circumstances, a compromise seems to be the natural outcome and no doubt this will be arrived at.

## Sifton's Position

Mr. Sifton is saying nothing, but is the subject of a great deal of flattering comment from all parts of the Dominion. Should a compromise be reached and it be by him, one possible for him to re-enter the Cabinet, he would do so very much stronger in the confidence of the country than he ever was before.

The Intercolonial still a Loser.

The principal business of yesterday was the discussion of the estimates of the Intercolonial Railway. It appears that the Government road has entered upon another period of deficits and for the past year the difference between outlay and income was about a million to the bad. Considering the enormous capital expenditure made upon this road during Mr. Blair's ministry upon which there is no expectation of interest being earned, the time would seem to have arrived when the road should at least pay running expenses, but the date seems to be as far off as ever.

The Minister of Public Works.

At the beginning of the proceedings Mr. McLean, of the Toronto World, made a demand upon the Prime Minister for an announcement of the resignation of the Hon. Mr. Sutherland, Minister of Public Works, which McLean said the Premier had in his pocket. Mr. McLean declared that it was a violation of constitutional precedent that the Public Works Department should be administered as long as it has been, by the Acting Minister, Mr. Hyman. The ill-health of the Minister is admitted and the necessity of having the department administered, but he demanded that it should be administered by a responsible Minister, and asserted that the reason Mr. Sutherland's resignation was not announced and Mr. Hyman called upon to take the post, was because the Government dared not open the constituency represented by Mr. Hyman at the present time as would be necessary if he were to be appointed Minister.

Mr. Sutherland has not Resigned

The Premier did not reply to Mr. McLean's arguments further than to absolutely deny that Mr. Sutherland had tendered his resignation.

A

# BIG ROOMY SHIRT

No other workingman's shirt is made so big or comfortable or so strongly as the H.B.K. Big Shirt.

Not a skimpy, factory-made, cheap shirt but a shirt made of honest material and lots of it. As big and easy fitting as the ones your mother used to make with three yards and a half of goods. Every H.B.K. Big Shirt has three and a half to three and three quarter yards of material.

Ample room under the arm-pits, broad and spacious on the shoulders, full and long bodied, big sleeves, an easy wearing shirt and a long wearing shirt.

Every shirt is branded with this brand and guaranteed by the makers.

BULLETIN CO. (LTD.)

Our city has good water but good water can be made better, and Ross Bros. Ltd. have the thing to do it with. Have you seen their "Noxall Filter." It is the simplest Filter on the market, the most thorough and by a long ways the cheapest. Any family can afford one and they are made either for pressure to attach to your city water tap or gravity to filter from a pail or crock.

**You Wouldn't Eat Dirt**

**WHY drink it? Guard against disease and poison from impure water by using a**

**NOXALL**

**Germ Proof Water Filter**

Positively removes all germs and impurities. It is quick-flowing, simple, compact, cleans in a minute and does not require frequent renewal.

**CALL AT THE STORE FOR DEMONSTRATION**

**Ross Brothers, Ltd.**

Following is one of the many testimonials that speak of the work done by these Filters:—

## The Duquesne Chemical Laboratory.

Analatical Chemists and Chemical Engineers, Standard Bldg., 531 Wood St. Pittsburg, Pa., April 13, 1897.

GENTLEMEN:—Following is the report on the samples of water taken from the regular city supply, and also after it had passed through the Tripoli filter. Two filters were tested in this manner one having just been started and the other having been in use four months. The chemical analysis, made to show animal and vegetable pollution, includes the amount of ammonia, albuminoid ammonia and oxygen required to completely destroy such pollution. The bacteriological analysis is a count of the total number of living microbes in ten ordinary drops of water. This test was repeated in duplicate in case of the filtered samples. The results obtained on analysis are as follows:

Water from hydrant.	From old filter.	From new filter.
Ammonia . . . . .	0.03 . . . . .	0.02 . . . . .
Albuminoid Ammonia . . . . .	0.20 . . . . .	0.09 . . . . .
Oxygen Consumed . . . . .	1.64 . . . . .	0.56 . . . . .

The figures represent parts of the impurities in one million parts of water. On cultivation, the hydrant water showed 890 bacteria in ten drops. That from the old filter 0, 2 and 4 in three tests, and from the new filter 3, 3 and 7. The above shows that the number of living microbes present has been reduced 99.6 per cent; the ammonia is reduced 39 per cent; the albuminoid ammonia 57 per cent., and the oxygen consumed 64 per cent. by passing through the filter, making the originally very bad water equal in cleanliness and purity to the best spring water. These results cannot be surpassed by any system of filtration with which we are familiar.

Respectfully submitted,

W. E. GARRIGUES CHIEF CHEMIST AND MANAGER.  
99.6 per cent. of living microbes eliminated by use of the filter.

The price is from \$3.00 up, the \$3.00 one fits on to any house tap and can be removed in two seconds. They are stone Filters and the stones can be cleaned as easily as any glass tumbler or delf cup. The Gravity filters are only \$4.50 and readily filter water from a pail into any other vessel placed to receive the filtered water. They are small and can be easily packed in a small space to carry from place to place.

The above is correct cut of the Gravity Filter, showing it in operation.

The above is correct cut of the Tap Filter, showing it in operation.

These Filters can only be had in Alberta from ROSS BROS. who are Sole Agents. The Trade supplied.

ROSS BROTHERS, Limited.

## THE AREA OF THE PROVINCES.

The Winnipeg Free Press gives the following information as to the size of the two new provinces and how they compare with the other provinces:

The provinces that will enter into the sisterhood of Confederation on Dominion Day will be among the largest in Canada. The smallest is, of course Prince Edward Island, the area of which is only 2,184 square miles. Nova Scotia is 21,423, and New Brunswick 27,085 square miles, in extent. Manitoba has 73,372 square miles. There are three Canadian provinces greater in area than Alberta and Saskatchewan. British Columbia, the largest of all, has an area of 371,610 square miles, and Ontario and Quebec are not far behind with 260,882 and 351,813 square miles respectively. The new Province of Saskatchewan is somewhat the smaller of the two, possessing an area of 238,001 square miles. Alberta area is 249,000 square miles.

Comparing these areas with those of the largest of the American States, it is found that exclusive of Alaska, the greater portion of the 590,834 square miles of which is unorganized, Texas alone exceeds them in area. The one Star State has an area of 265,780 square miles. The nearest approach to it in dimension is California, with 158,300 square miles, and Montana, with 146,181 square miles.

The breadth from east to west of the new Province of Saskatchewan at the international boundary is 388 miles, twenty-eight miles of this lies to the east of the second principal meridian, and the distance between the second and fourth principal meridian is 360 miles. At its northern boundary the breadth of Saskatchewan is, as nearly as can be computed, 248 miles, it being much less there than at its southern extremity owing to the drawing together of the meridians as they approach the pole. Thus the average breadth of the new Province is 318 miles. Its length is 750 miles so that its area will be approximately 338,500 miles.

The second principal meridian runs out of the new Province at Leon Lake, at about 76 degrees north. Lake Athabasca is about bisected by the boundary between the two new Provinces.

The area of the new Province of Alberta is not so easy to compute with equal exactness, owing to the fact that the boundary between it and British Columbia is for some 500 miles the summit of the Rocky Mountains. The triangle between the fifth principal meridian and the Rocky Mountains, the eastern side of which is about 300 miles in length and the northern 264 miles, contains about 46,000 square miles of territory. That portion of the Province to the north of this triangle has average breadth of 491 miles, and a length of 400, making a total area of this section 58,000 square miles. The remaining portion has an average breadth of 140 miles, and a length from north to south of 750 miles. This gives an area of 105,000 square miles. Thus the approximate total area of the new Province of Alberta is 240,000 square miles or 10,500 square miles more than its sister Province of Saskatchewan.

## CURING THE FILLER

THE Pharaoh filler I select in Manicargua—Province of Santa Clara, Cuba, is generally harvested in February.

The plants are cut down at daybreak—allowed to remain until eleven o'clock in the morning—until they are properly wilted—then taken to curing houses for drying.

After they are thoroughly dried they are allowed to become moist through atmospheric humidity and then made into "hands." Four of these hands constitute a carat, eighty carats make a bale.

After allowing it to age for three full years, in order to develop its superb fragrance and aroma, I make it up into "Pharaoh."

That's why there is a taste and odor of genuine tobacco in my Pharaoh Cigar.

## PREMIER HAULTAIN

## OPPOSES SEPARATE SCHOOLS,

Territorial Premier out With an Open Letter on the Autonomy Bills,

Ottawa, March 13.—There are no further developments in the Cabinet difficulty. Premier Haultain is out with an open letter on the autonomy bills, in which he criticizes, but accepts two provinces instead of one and also cash commutation for lands. He holds strongly against the provisions guaranteeing Government aid to separate schools as an infringement on provincial rights and says he was not consulted on this point until the last moment.

## Telegraphic Briefs.

Winnipeg, March 13.—Wilbert Irvine of Melford, Saskatchewan, was arrested here Saturday by Detective Chatterton, under instructions from Corpl. McLellan, R.N.W.M.P. Irvine is wanted on a charge of obtaining money under false pretences.

Arendson Fortin, on Sunday celebrated the fortieth anniversary of his ordination to the priesthood and thirty years rector of Holy Trinity.

At Chatham Daniel Forsythe, burglar, beat Turnkey Somerville, and a pair Chas. Benjamin, and locked them in the cellar and made his escape.

Mrs. Geo. Cunningham, of Severn, Ont., dropped dead this afternoon frightened by a burning chimney.

Boissvain and Emerson Boards of Trade passed strong resolutions demanding the extensions of boundaries and airports on Hudson Bay. Delegates to Ottawa, in this regard, leave for the east Tuesday.

## CURLING.

The several competitions are narrowed down to the finals and one final was played Saturday night. In the afternoon Emery and Dowsett met in the semi-final of the Hardisty Cup and Dowsett won out. In the evening the same rivals met in the final of the Hudson Bay Cup and the tables were turned and Emery was successful. Dewar and Rob had a very close game in the semi-finals of the Hardisty and Dewar only won by the narrow margin of one point. Dewar and Dowsett meet in the finals for this cup tonight.

## WANTED.

GOOD AGENTS FOR THE Oliver Typewriter

IN ALL UNOCCUPIED TERRITORY

Over 100,000 of these machines have been sold in the U.S. within the last few years at the same price which is being charged for any other standard typewriter. This proves conclusively that the OLIVER is the very best machine made regardless of price.

As there is now in Montreal a factory devoted exclusively to the manufacture of this machine, it can be bought in Canada for the same price at which it is sold in the U.S. without adding from \$25 to \$30 to cover duty and charges, as do all the other standard writers.

This should be a very attractive proposition to any purchaser of writing machines.

APPLY TO THE CANADIAN OLIVER TYPEWRITER CO., 183A T. JAMES STREET, MONTREAL.

# OTTAWA WON.

## THE CAPITAL RETAINS THE CUP.

Third Match for the Stanley Trophy and the World's Championship.

Ottawa, Ont., March 11, 7.45 p.m.—The rink is filled up and a record crowd will surely attend tonight. The ice is hard but is a trifle rough.

8.39.—The challengers have just started on the ice and receive a very nice welcome. The challengers do not appear to be suffering any from the heavy play of Thursday night.

8.41.—The Thistles will line up with their regular team tonight and Ottawa will do likewise. The champions come on now, led by Capt. Smith, and receive a deafening ovation.

### CHALLENGERS FIRST.

They are off. McGee got it but lost to McGinnis. Hooper almost scores, but it's too high. McGee tries a shot and it's close. Now Smith shoots, but it's wide. Westwick bats it, but too high. Gilmore fooled two of the western men and shot right on goal. Gilmore is off for tripping. Hooper and McGee come down strong but Bellefeuille gets it and comes up and tries a shot. Griffis shoots a hot one to Minnie but it is wide. McGee gives Griffis a hard check near side. McGee ruled off for holding Hooper. Ottawa, playing two men short now, Pulford comes down but Bellefeuille out-plays two men and tries a wide shot. Tom Phillips sends a close one to Ottawa goal. Gilmore gives McGinnis a hard check. Brown comes up strong, but lost to McGee, who almost scores. It is in clear centre. McGee shoots, but it is stopped by Griffis, who scores the first goal for Rat Portage in ten minutes.

Off again. Rat Portage get it, but loses too Westwick. Hooper got it and nearly scored, but Finn's relieved it. McGee shoots wide. Gilmore loses to Phillips, who gets a nasty body from Pulford. Pulford sends it right into Gilmore's net. McGee comes down, but McGinnis fools him. Griffis lost a nice chance to score, for his team. Smith gets it and shoots wide. McGee got it, but passes to Westwick who shoots wide. Griffis outplays the whole Ottawa defence and receives a nasty cut on the nose from Pulford's stick. Pulford goes off. Game stopped. Griffis is so far playing better than before. He goes on again as if nothing had happened. Ottawa one man short. They face near Ottawa goal and McGinnis shoots. McGinnis comes to centre but Westwick and Smith sandwich him. Gilmore comes down hard, but Bellefeuille is in the way. It comes to centre. McGee gets it and shoots and scores second goal for Ottawa in nine minutes.

### RATS AGAIN.

They start again. McGee gets and sends to Gilmore. Gilmore tries a shot but it is wide. Hooper comes up strong but Gilmore gets it. It goes to centre where Smith lost to Phillips who shoots a hot one and scores the third game for Rat Portage in ten minutes.

At half time the score stands, Rat Portage 2; Ottawa 1. McGinnis gets the face. Westwick comes up and sends a red hot one to Gilmore but he returns it. Bellefeuille comes down but loses to Pulford who comes up and shoots. McGee tries a shot. Griffis is off for tripping. They face close to Thistle goal. Rat Portage got it but lost to Smith. Bellefeuille comes down, but Gilmore relieves. Phillips comes down strong and shoots a hot one. Pulford is badly hurt. Game stopped. He is up again and receives a cheer. Phillips shoots a wicked one at Pulford. It is getting rough and Hooper goes off for cross checking Smith. Smith tries a shot, but Bellefeuille spoiled it. Phillips comes down. McGee gets it and shoots a close one to the net. It is off side and McGee got it from the face and shoots wide. Phillips off for tripping. Pulford. Smith shoots a hot one to Gilmore; it is off side. Game stopped. Dispute about time. It is away again, Bellefeuille fools Smith and comes down for a shot. Smith scores fourth game in eight minutes.

### PORTAGE AGAIN.

They start again. Phillips comes down and shoots in fifth game for Rat Portage in seven minutes.

### OTTAWA GETS TWO.

Brown shoots from centre but it is stopped. Smith is tripped by Hooper and Hooper goes off. Moore is off. Playing six men a side. Sixth game scored for Ottawa. Smith checks Griffis in face. Ottawa playing 5 to 6. There is a kick about it but Smith goes off. Ottawa scores seventh game.

### PORTAGE GETS THE EIGHTH.

Game starts again. Westwick goes up strong. Rat Portage scores 8th game in four minutes.

### OTTAWA SCORES LAST GOAL.

Smith comes up, but loses to Ottawa man. Hooper tries a shot. Westwick loses to Griffis. Gilmore, Ottawa, scores another. The ninth game was scored for Ottawa in three minutes.

Ottawa wins 5 to 4, and the champions are being carried off the ice.

## FORT SASKATCHEWAN.

The Reporter gives the following account of the work of the Ottawa delegation.

They first interviewed McKenzie & Mann, at Toronto, the very day before that gentleman left for England and with him discussed the question of a traffic bridge. He informed the delegation that the Canadian Northern were willing to build the traffic bridge provided that a grant of land in the police reserve for station could be obtained and the cost of such bridge put up. The proposed location of the bridge was then shown to the delegation and it was pointed out that it was impossible to change that because of the grade. The construction of a bridge exactly opposite Government street as suggested by the delegation, would necessitate the provision of a swing bridge, because the north Saskatchewan is considered a navigable river. This alone would cost \$150,000. As it was a site about three quarters of a mile above the present ferry had been determined upon, as fulfilling all the official requirements as to navigation, etc.

The next interview was with Messrs. Hamilton and Bulger, at Ottawa. This was in reality, the most momentous meeting, for the \$47,000 required is to be advanced by the present Territorial government and not as generally supposed by the Federal government, and in the present evolutionary stage of the Fort, they were not particularly desirous of entering into extensive engagements. However, in the end, this object was obtained and a satisfactory promise given that the money would be forthcoming provided that all the plans, etc., were satisfactory to the Northwest Government engineer. This point gained, it was necessary to see the Police reserve and on this head the Deputy Minister of Interior Mr. Cory and Mr. Whyte, the Comptroller of the N. W. M. P. had to be seen. These interviews being successful, it was necessary also to see the Canadian Northern and Mr. Mann was sought out and seen at Ottawa. Finally the outcome is that the Fort is assured of a railway through the town, the location of a station within 400 feet of Government street. A traffic bridge, constructed of steel with 4 spans of 120 feet each, at an elevation of 106 feet above the present water level.

#### Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory

**Coal.**—Coal lands may be purchased at \$10 per acre for soft and \$20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of 2000 pounds shall be collected on the gross output.

**Quartz.**—Persons of eighteen years and over and joint stock companies holding free miners' certificates may obtain entry for mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of \$750 per annum for an individual, and from \$50 to \$100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1,500 by 1,500 feet by marking out the same with two legal posts bearing location notices, one at each end of the line of the lode or vein.

The claim may be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is \$5.00.

At least \$100 must be expended on the claim each year or paid to the mining recorder in lieu thereof.

When \$500 has been expended or paid the locator may, upon having a survey made, and upon complying with other requirements purchase the land at \$1.00 per acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

**Placer Mining.** Manitoba and the N. W. T., excepting the Yukon Territory.—Placer mining claims are generally 100 feet square, entry fee \$5.00, renewable yearly. On the North Saskatchewan river claims for either bar or beach, the former being 100 feet long, and extending between high and low water mark. The latter includes bar diggings but extends back to the base of the hill or bank but not exceeding 1,000 feet. Where steam power is used, claims 200 feet wide may be obtained. Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each, for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, and subject to the rights of all persons who have or who may receive entries for bar diggings on bench claims, except in the Saskatchewan river, where the lessee may dredge to high water

mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease, one dredge for each fifteen miles or fraction, will be sufficient. Rental \$10 per annum for each mile of the river leased. Royalty at the rate of two and a half per cent. collected on the output after it exceeds \$10,000. Dredging in the Yukon Territory.—A lease of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by a position on the first day of August in the year of the date of the lease.

(The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental, \$100 per mile for first year, and \$10 per mile for each subsequent year. Royalty same as placer mining.)

**Placer Mining in the Yukon Territory.**—Creek, gulch, river and hill claims shall not exceed 250 feet in length measured on the base line or general direction of the creek or gulch, the width being from 1,000 to 2,000 feet. All other placer claims shall be 200 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days. If the claim is within ten miles of a mining recorder's office. One extra day allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two, 1,500 feet altogether, on the output of which a royalty shall be charged, the rest of the party ordinary claims only.

Entry fee, \$10. Royalty at the rate of two and one-half per cent. on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notices and paying fee of \$2.00. A claim may be abandoned and another obtained on the same creek, gulch or river by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least \$200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made, and publishing notice in the Yukon Official Gazette.

**Hydraulic Mining.** Yukon Territory.—Locations suitable for hydraulic mining, having a frontage of from one to five miles, and a depth of one mile or more, may be leased for twenty years, provided the ground has been prospected by the applicant or his agent; is found to be suitable for placer mining, and does not include within its boundaries any mining claims already granted.

A rental of \$150 for each mile of frontage and royalty at the rate of two and one-half per cent. of the value of the gold shipped from the Territory are charged. Operations must be commenced within one year from the date of the lease, and not less than \$5,000 must be expended annually. The lease includes all base metals, quartz and coal, and provides for the withdrawal of unopened land for agricultural and building purposes.

**Petroleum.**—All unappropriated Dominion lands in Manitoba, the Northwest Territories and within the Yukon Territory, are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospecting, an area of 640 acres. Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery on an area not exceeding 640 acres, including the oil well and such other land as may be determined, will be sold to the discoverer at the rate of \$1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.

ONE of the advantages of the Cuban tobacco I procure, is that it is almost entirely cured by nature.

The climate is so hot that the tobacco sweats naturally—the leaf is ripened uniformly and the subsequent process of curing is favorably promoted.

With the expert attention the leaf receives in Cuba it is pretty thoroughly cured and preserved—and its fragrant aroma, developed by having been slowly fermented. I allow it to remain in my warehouse from 2 to 3 years until it has sufficiently aged and has that mellowness that age alone can give. It takes a lot of study and experience to know when Havana tobacco is just right. Flavored tobacco is always just right.

## LOCAL

—The public schools of Strathcona were closed all last week and the buildings fumigated as a precaution against scarlet fever, a few cases of which are reported about town. School will be resumed as usual next Monday unless otherwise ordered by the board of health.

—Minner, the man who is alleged to have robbed the C. P. R. train at Mission Junction, is now under arrest at Washington. He is ill in a hospital and will be taken to British Columbia as soon as he recovers. The hunt for this prisoner has been going on for months, and it is only by persistent work and handling of small clues, that the police authorities have been enabled to land their man.

—Quebec Daily Telegraph:—Mr. Rocket Power, the stalwart cover-point player of the Quebec Hockey Club's senior team, left yesterday for Edmonton, N. W. T., where he will join the Grand Trunk Pacific hockey party. Rocket will play no more in key this year, at least, with the Quebec team, and his loss will be a serious one. Rocket is considered one of the best defence players in the game and his loss will be felt not only by Quebec but by the C.A.H.L. Mr. Power is a son of W. Power, M. P. for Quebec West.

—Wetaskiwin Times:—On Wednesday evening a Sabbath school institute was held in the Methodist Church, conducted by Rev. C. H. Huels, M. A., Edmonton, President of the Alberta S. S. Association. Mr. Huels gave a very able address on "The Teachers, His Training," and afterwards conducted an "open Parliament" on modern methods of S. S. work. The session was very interesting and instructive to the large audience present. Mrs. Montgomery, Miss Duggan and Mr. Hogg sang appropriately.

—The Indian Head Prairie Witness says:—Coal on the Kirkella line is two dollars dearer, and lumber is three dollars and a half per thousand dearer than they are on the main line, and yet we talk as if the C.P.R. were doing something to develop the country. The freight on both the commodities on the main line is away beyond all sense or reason, but when there is a change for a cinch such as exists on such railways as the Kirkella branch a company was never known to forego it. The present method of levying rates in vogue with the company is not based on any principle of fair play or justice. The discrimination practised on the Kirkella line is only a sample and once more illustrates what has been demonstrated a thousand times over in the history of the C. P. R. that the only principle accepted in levying rates is what the traffic will bear.

The Canadian Northwest  
Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres, more or less.

ENTRY.—Entry may be made personally in the district in which the land to be taken is situated, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) or any person who is eligible to make a bona fide entry under the conditions of the Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent, may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(3) If the settler has obtained a patent for his homestead, a certificate for the issue of such patent countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3, or 4, must or substitute 20 head of stock, with building for their accommodation, cultivate 80 acres of his homestead, and in addition 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd June, 1899.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years before the local agent, sub-agent, or Homestead Inspector. Before making application for patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Land Office, in Manitoba, or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands, in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,

Deputy Minister of the Interior.

N. R.—In addition to Free Grant Land to which his regulations above stated refer, thousands of acres of most desirable land are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

## We Offer \$1,000

For a Disease Germ That Liquezone Can't Kill.

On every bottle of Liquezone we offer \$1,000 for a disease germ that it cannot kill. We do this to assure you that Liquezone does kill germs.

And it is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is almost helpless in any germ disease. It is this fact which gives Liquezone its worth to humanity; a worth so great that, after testing the product for two years, through physicians and hospitals, we paid \$100,000 for the American rights. And we have spent over one million dollars, in one year, to buy the first bottle and give it free to each sick one who would try it.

## Acts Like Oxygen.

Liquezone is not made by compounding drugs, nor is there any alcohol in it. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. This process has, for more than 20 years, been the constant subject of scientific and chemical research.

The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is an absolutely certain germicide. The reason is that germs are vegetables;

and Liquezone—like an excess of oxygen—is deadly to vegetable matter.

Liquezone goes into the stomach, into the bowels and into the blood, to go wherever the blood goes. No germ can escape it and none can resist it. The results are inevitable, for a germ disease must end when the germs are killed. Then Liquezone, acting as a wonderful tonic, quickly restores a condition of perfect health. Diseases which have resisted medicine for years yield at once to Liquezone, and it cures diseases which medicine never cures. Half the people you meet—wherever you are—can tell you of cures that were made by it.

## Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquezone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

Asthma, Allergic, Anemia, Bronchitis, Blood Poison, Bright's Disease, Bowel Troubles, Catarrh, Cholera, Consumption, Croup, Cystitis, Diabetes, Dropsy, Dysentery, Eczema, Hay Fever, Indigestion, Kidney Disease, La Grippe, Leucorrhea, Liver Troubles, Malaria, Neuritis, Nervous Prostration, Pains, Rheumatism, Ringworm, Scabies, Skin Diseases, Stomach Troubles, Throat Troubles, Tuberculosis, Typhoid, Venereal Disease, Whooping Cough, Worms, Yaws.

Dysentery, Erysipelas, Gout, Gonorrhea, Gravel, Hay Fever, Indigestion, Kidney Disease, La Grippe, Leucorrhea, Liver Troubles, Malaria, Neuritis, Nervous Prostration, Pains, Rheumatism, Ringworm, Scabies, Skin Diseases, Stomach Troubles, Throat Troubles, Tuberculosis, Typhoid, Venereal Disease, Whooping Cough, Worms, Yaws.

## 50c. Bottle Free.

If you need Liquezone, and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and we will pay the druggist ourselves for it. This is our free gift, made to convince you; to show you what Liquezone is, and what it can do. In justice to yourself, please, accept it to-day, for it places you under no obligation whatever.

Liquezone costs 50c. and \$1.

CUT OUT THIS COUPON for this offer may not appear again. Fill out the blanks and mail it to The Liquezone Company, 528-54 Wabash Ave., Chicago.

My disease is..... I have never tried Liquezone, but if you will supply me a 50c. bottle free I will send it.

Give full address—write plainly.

Any physician or hospital not using Liquezone will be gladly supplied for a test.

## EDMONTON ALTA. CANADA

POPULATION, 7,500

## CITY GOVERNMENT:—

Mayor, E. W. MacKenzie; Aldermen, C. May, K. A. McLeod, W. H. Clark, D. R. Fraser, J. R. Boyle, T. Bellamy, J. H. Picard, W. A. Griesbach.

Conveniences:—Waterworks, sewer systems, telephone system, electric lighting system, all owned and operated by the city.

Board of Trade:—President, J. H. Morris, Secretary, F. E. Tims.

Immigration Officer:—C. W. Sutter.

Educational Institutions:—Public and separate schools, high school, Alberta College.

CHURCHES:—Roman Catholic, Anglican, Presbyterian, Methodist, Baptist, German Baptist, Lutheran, Salvation Army.

TRAIN SERVICE:—Leaves for Strathcona 7.45 and 15.30. Arrives from Strathcona 9.15 and 11.50.

## LOCAL

—Train on time.

—Probs.—Fair and cold, few light local snow falls on Tuesday.

—G. Corriveau of the Windsor has purchased J. Lubbock's automobile.

—Saturday's train had two extra coaches, bringing a large number of American immigrants.

—The Epworth League of Grace Methodist Church, Kinsmen avenue are having a night with the Irish, this evening.

—The Young People's Society of the Presbyterian Church will hold a social in the basement of the church this evening.

—F. H. Kitto of Alberta College was received word from Ottawa that he was successful in passing the preliminary examination for Dominion Land Surveyor.

—A story is current on the street to-day to the effect that the contract has been let for the erection of a power house for the Street Railway Co.

—The first rehearsal of "In the Trenches" a military drama of the Spanish American War, under the direction of Arthur A. Hopkins, will be held in Robertson's Hall Tuesday evening at 8 o'clock. All members of the company are urged to be present.

—The Strathcona health authorities are taking active measures to check the epidemic of scarletina, schools and Sunday schools have been discontinued and preventives and disinfectants have been distributed by the council. A campaign for cleaning up the streets, lanes and yards has also begun.

—The Edmonton hockey club have published an illustrated score book and souvenir of the season. Photos are given of the rink, the trophies held by the club, the members of the team, officers of the club, patrons and the intermediate team. Pages are arranged for the scores of over twenty games. Had the book been issued earlier in the season, it would have been valuable as a means of keeping the record of the season's play. As it is it forms a good souvenir of the team and the season.

## PERSONAL.

Sam Pato returned on Saturday from the East.

J. St. Clair Blackett returned from Victoria on Saturday.

H. McMillan returned from Winnipeg on Saturday.

A. M. Stewart returned from Wetaskiwin on Saturday.

J. Dawson of the firm of Brown, Dawson, Kennedy and Hyndman, went South this morning.

Commissioner Perry of the R.N.W.M.P., came in from Regina on Saturday.

J. A. Powell made a business trip to the Fort on Saturday. Business at the Fort is fairly good. Crossing the river is still made on the ice but is risky.

Miss Ethel Webster, leader of the Presbyterian church choir, and one of Edmonton's leading vocalists, fills a concert engagement in Calgary this week.

Miss Watson, of Portage la Prairie and Miss Tierney, of Vancouver, who have been the guests of Miss G. Robertson for a short time left this morning for home.

Mrs. (Dr.) C. J. Reid (nee Evans), Jasper avenue, will receive Thursday afternoon and evening and on Friday afternoon of this week, and every first and third Friday hereafter.

Now is the time to be interested in a few carefully grown

## SHADE TREES, HARDY SHRUBS, A NICE HEDGE, VINES ETC. FOR YOUR LAWN.

You should procure these grown in the north and have them selected for your individual property by one experienced in this line in Alberta, and they should then be guaranteed to grow. We are in a position to give you suggestions and to fulfill these requirements.

Special prices this first season.

## Superfluous Hair

Removed by the New Principle

## De Miracle

It is better than electricity, because it does not scar or produce a new growth. Better than X-ray, because it does not burn, scar or paralyze the tissues under the skin. Better than depilatories, because it is not poisonous; therefore, it will not cause blood poisoning, or produce eczema, which is so common with depilatories, and does not break off the hair, thereby increasing its growth.

Electrolysis, X-ray or depilatories are offered you on the bare word of the operators and manufacturers. DE MIRACLE is not. It is the only method which is endorsed by physicians, surgeons, dermatologists, medical journals and prominent magazines.

DE MIRACLE will be mailed to any address, sealed in plain wrapper for \$1. Your money back without question if it fails to do all that is claimed for it.

Our booklet—the most complete treatise on Superfluous Hair ever published—containing the testimonials of numerous physicians and surgeons and those of hundreds of others—will be sent free, in plain, sealed envelope, upon request. Write for it to-day to DE MIRACLE CHEMICAL CO., 23 QUEEN STREET WEST, TORONTO, ONT.

THE ROBERT STEWART COMPANY LIMITED, TORONTO, ONT.

## Salesmen Wanted

No Experience Necessary

If you are able to talk and will follow instructions you can make at least \$5.00 per day. We furnish you, FREE, a handsome book containing a large range of samples of cloth for Suits, Overcoats and Trousers; measuring line, fashion plate and letter of instruction. This outfit will enable you to get as much business as if you carried a \$10,000 stock of goods.

You require no money. The work is very simple. If you are honest and keen business, and want to improve your position, we will show you how.

The Canada Tailoring Co. TORONTO

## HOCKEY

The Old and Calgary hockey teams come up today and play on the Strathcona rink tonight.

The Olds team will stay and play the Edmonton team tomorrow night here, in an exhibition game.

Calgary plays Strathcona on Wednesday evening, in Strathcona. Calgary and Edmonton play on Thursday night in Edmonton.

## DIED

ANDERSON—On March 10th, 1905 at Ocean Park, California, Christopher Vertie Anderson, of Oak Lake, Manitoba. Aged 39 years, youngest son of Thomas Anderson, Edmonton.
